

AYESHA

Mianwali, Punjab, Pakistan | 2488ayesha@gmail.com | github.com/ayeshaa007 | linkedin.com/in/ayeshaa007

OBJECTIVE

Motivated BS Computer Science student specializing in mobile app development using React Native and backend development with Python. Interested in building intelligent applications by integrating APIs and fundamental AI/image processing techniques. Seeking an internship to apply technical skills in real-world software projects.

EDUCATION

BS Computer Science — University of Mianwali, Punjab, Pakistan
CGPA: 3.63 | Expected Graduation: 2027

TECHNICAL SKILLS

Languages: Python, Java, C++ (Basic)
Mobile Development: React Native (Learning), Android (Java/XML)
Web Development: React, HTML, CSS
Backend & APIs: Python (FastAPI – Learning), REST APIs
Databases & Tools: MySQL, SQL, Git, GitHub, VS Code, NetBeans
Core Concepts: OOP, Data Structures, AI Fundamentals, Digital Image Processing

PROJECTS

Ultrasound Analyzer App *(React Native + Python + AI | In Progress)*

- Developing a mobile application to upload and analyze ultrasound images.
- Integrating a Python backend with FastAPI for image processing and analysis.
- Applying image processing techniques using OpenCV for automated analysis.
- Designing a clear UI to display analysis results in an intuitive format.

Stock Management Mobile App *(Android – Java/XML)*

- Built an inventory management application with full CRUD operations.
- Implemented local database integration for efficient data storage and retrieval.
- Designed a simple, user-friendly mobile interface for ease of use.

Environment Awareness Website *(React)*

- Built a responsive web application using reusable React components.
- Designed an interactive UI to promote environmental awareness.

Balloon Shooting Game *(C++ + SFML)*

- Developed game logic, a scoring system, and responsive user interaction.
- Focused on smooth gameplay performance and optimization.

Blood Donation Database System *(SQL Project)*

- Designed ER diagram and relational database schema from scratch.
- Implemented efficient SQL queries for donor management and search.

CERTIFICATIONS

- 3-Month Computer Application Course
- AI Masterclass Certificate

CURRENTLY LEARNING

- Mobile app development using React Native.
- Backend development with Python and FastAPI.
- Image processing techniques using OpenCV.

SOFT SKILLS

Problem Solving | Communication | Teamwork | Time Management | Quick Learner
